COURSE OVERVIEW

The Graduate Certificate in Leadership (GCL) provides an opportunity for students to consider the theory and practice of leadership as it applies to their own context.

It develops skills required for effective leadership including self-awareness, communication, theological reflection and research.

ALC works in conjunction with the University of Divinity School of Professional Practice to deliver this award and is particularly involved in the delivery of leadership units for teachers in Lutheran schools and early childhood services.

Units are delivered via livestreamed intensives and webinars, some are fully asynchronous online.

COURSE OUTCOMES

They will analyse and synthesize information to inform leadership practices. Graduates also develop skills to address theological, social, cultural, ethical, and sustainability issues in leadership.
