

2022 Higher Education Workshop Calendar

Scheduled workshops

Workshops are offered as enhanced learning experiences for students, to provide face-to-face engagement (whether live stream or on campus) with the unit's subject matter and an orientation to associated assessment tasks, to promote a sense of learning community and an opportunity for sharing between participants. Most workshops are associated with online units.

Attendance

If you select this option please make every effort to attend because there's a minimum number required to make it a worthwhile experience.

Cancelled workshops

Workshop are subject to cancellation if a minimum cohort is not achieved. See *Notes* for more details.
